

ACT NOW TO BRING THE LIGHT RAIL & SOUNDER RAIL MULTIMODAL STATION TO THE BOEING ACCESS ROAD

Here's how you can get involved!

As commuters, most of us deal first hand with congestion around our workplace every day – now is the time to do something to give our people more transportation options!

Sound Transit recently began its process to determine the public's interest in supporting the Boeing Access Road Light Rail Station. They need to hear from each of us.

This is how to do it:

Take the survey – Just 5 minutes can make a big difference - select the Boeing Access Road Light and Commuter rail as high priorities (**Question 5**) and then again on Question Six as your first and second most important projects (**Question 6**)

<http://soundtransit3.org/survey>

- Comment on the website – <http://soundtransit3.org/connect>
- Attend a public meeting – <http://soundtransit3.org/connect>
- Send an email: soundtransit3@soundtransit.org

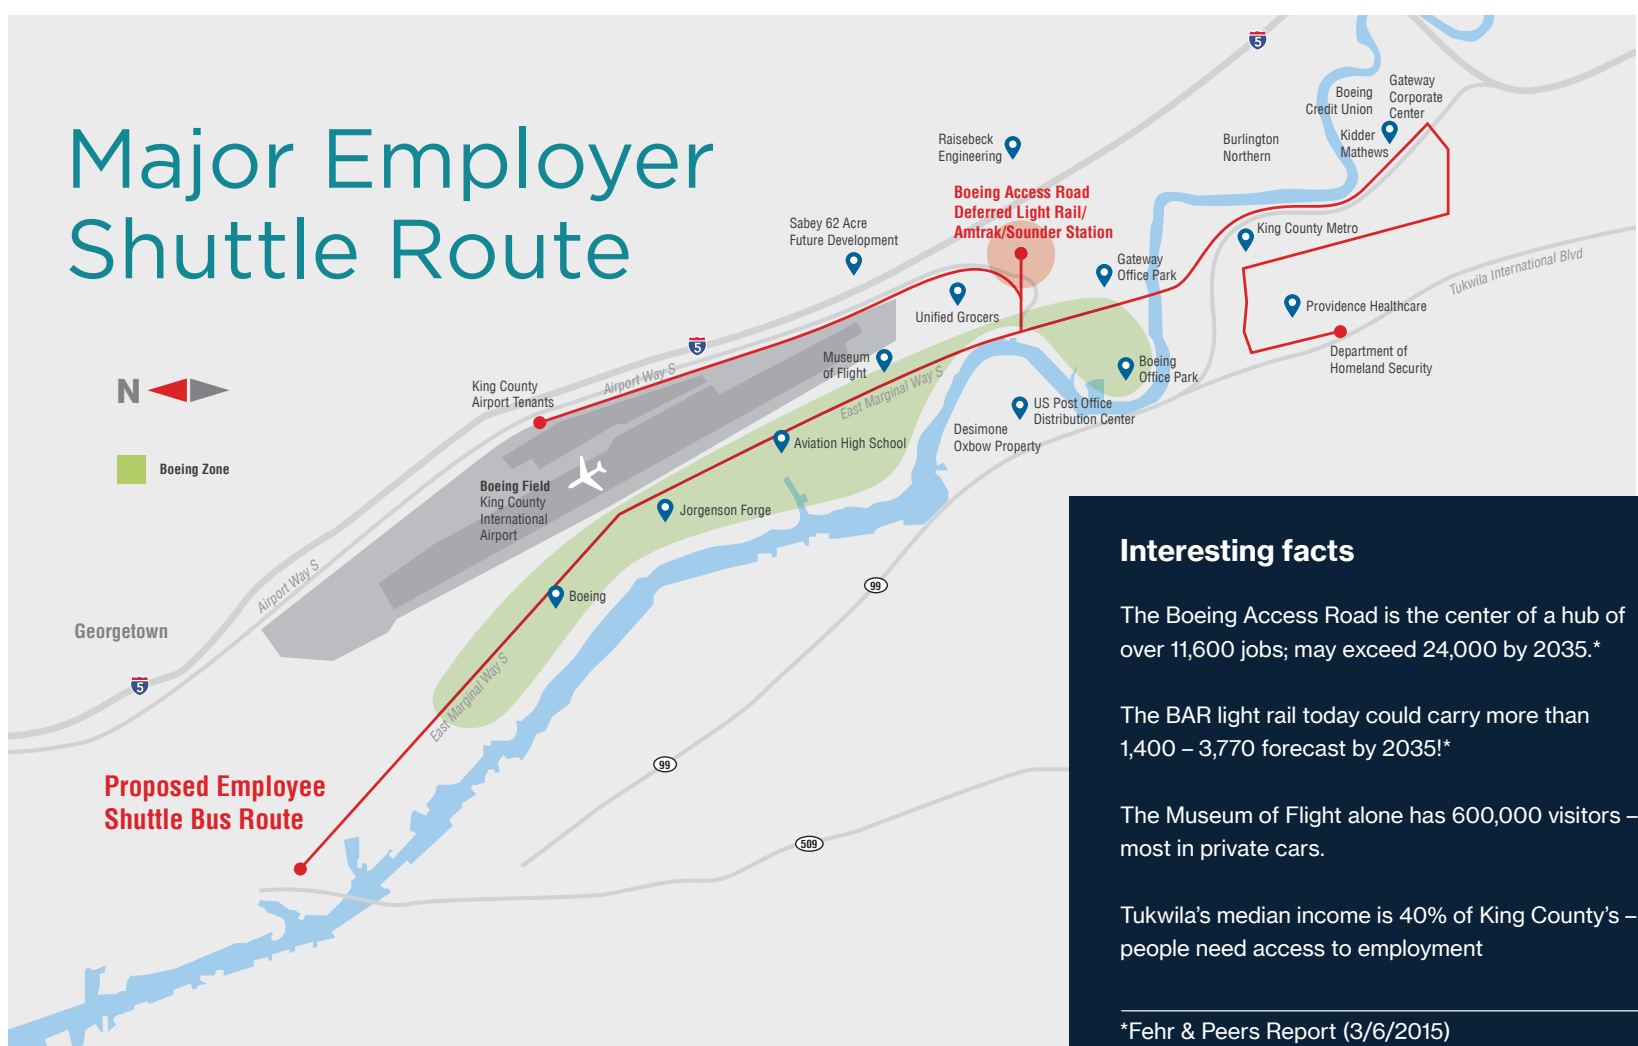

Question 5:

Question 6:

- Infill Light Rail Station: Boeing Access Road *High Priority*
- Infill Sounder Station: Boeing Access Road *1 & 2 Selections*

Major Employer Shuttle Route

Interesting facts

The Boeing Access Road is the center of a hub of over 11,600 jobs; may exceed 24,000 by 2035.*

The BAR light rail today could carry more than 1,400 – 3,770 forecast by 2035!*

The Museum of Flight alone has 600,000 visitors – most in private cars.

Tukwila's median income is 40% of King County's – people need access to employment
